LANGUAGES

Khmer - Native

English - Proficient (Speaking & Writing)

About Me

I'm a Year 4 Software Engineering student at ITC with strong skills in full-stack and mobile development, using Vue.js, React, Laravel, NestJS, and Flutter. I enjoy building real-world web applications and will soon work as a Full-Stack Web Developer, where I aim to apply my experience and grow through impactful, user-focused projects.

WORK EXPERIENCE

Frontend Developer Intern

Institute of Banking and Finance

Aug 2024 - Feb 2025

- Developed a responsive frontend for an internal E-learning system using Vue.js and Quasar
- Worked closely with the backend team to integrate APIs
- Focused on clean UI, UX design, and mobile responsiveness

🔗 [GitHub](#)
