- Frontend: Vue.js, React.js(Next.js)
- Backend: Laravel, Spring(Spring boot)
- Databases: MySQL
- Tools: Git, Docker, Figma, AWS
- Languages: JavaScript, PHP, Java, C, C++

LANGUAGES

Khmer - Native
English - Proficient (Speaking & Writing)

About Me

I'm a final-year(Year 5) Software Engineering student at ITC with experience in full-stack development using Vue.js, React(Next.js), Laravel, and Spring(Spring Boot). I've built responsive web apps, worked with APIs, and handled databases like MySQL. I'm passionate about learning and building real-world applications.

WORK EXPERIENCE

Frontend Web Developer Intern

Institute of Banking and Finance

Aug 2024 – Jan 2025 (6 months)

- Developed a responsive frontend for an internal E-learning system using Vue.js and Quasar
- Worked closely with the backend team to integrate APIs

Web developer Intern

Institute of Technology of Cambodia

Aug – Oct 2025 (3 months)

- Developed a web-based inventory system using Laravel, Filament, and MySQL.
- Implemented role-based access and real-time stock control across branches.

CERTIFICATIONS

Frontend Developer Internship Certificate

Institute of Banking and Finance (IBF)
Issued: Feb 2025

Basic&Advance C/C++ and OOP Certificate

ETEC Center
Issued: Auguest 2023

TOOLS & PLATFORMS

- GitHub
- Postman, VS Code
- Docker Desktop

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Fast Learner
- Time Management

TECH INTERESTS

- System Design
- Cybersecurity
- Full-stack Web Security

PROJECTS EXPERIENCE

EasyShop - E-commerce Platform
Personal Project

Stack: React, Spring Boot, MySQL, JWT, Tailwind CSS, AWS

- Built a full e-commerce website using React and Spring Boot.
- Added cart, wishlist, checkout, and login with JWT.
- Deployed the project on AWS with MySQL database

ITCShop - E-commerce Platform
Institute of Technology of Cambodia

Stack: Vue.js, Laravel, MySQL, Docker

- Built a full e-commerce platform with customer and admin modules.
- Secured backend with Laravel Sanctum and containerized using Docker.
- Deployed on Digital Ocean with MySQL for reliable hosting and data management.

E-learning System
Institute of Banking and Finance (Internship)

Stack: Vue & Quasar

- Learned core Vue.js concepts and Quasar design from my senior.
- Helped build pages and made custom video/audio components for company.
- Practiced building a company website from scratch by myself.

Stock Management System
Institute of Technology of Cambodia (Internship)

Stack: Laravel, Filament

- Developed a web-based inventory system using Laravel, Filament, and MySQL.
- Implemented role-based access and real-time stock control across branches.
